Notes

How do I donate seeds?

*There is no need to repackage your seeds; you can bring them in a paper bag or in the original commercial seed packet. Seed should be dry and clean of chaff.

*Bring them to the Front Desk during normal hours

*Fill out this donation slip, also available at the front desk. The contact information you provide is for internal library use in case we have questions about your seeds.

*We will accept any seeds, however we prefer those that are open-pollinated or heirloom, because seeds from these plants will be viable in the next year. If you do not know if your seeds are open-pollinated, please note that on this donation form.

*Easy seeds to save include: tomatoes, beans and peas, cucumbers, melons and squash, annual and biennial herbs, lettuce, peppers, eggplant, spinach and miscellaneous greens
